SOURCE

1. The CHEB (N 51/P 37) airfields were observed between noon and 3:30 p.m. on 12 September 1949.
2. A northeast-bound twin-engine low-wing monoplane flew over MALLERSBUTH (N 51/P 36) at an altitude of 3,300 feet and a speed of 185 m/h at 2:10 p.m. Two southwest-bound planes of the same type flew over the town at an altitude of 3,300 feet at 2:39 p.m.
3. A twin-engine low-wing monoplane of an undetermined type landed at the CHEB airfield at 2:23 p.m. and was parked about 0.5 miles east of UNTERSCHOEN.
4. An eastbound, single-engine, high-wing monoplane took off from the airfield at 2:35 p.m.

[REDACTED] Comment:

a. MALLERSBUTH is located on German territory. Thus, the impression is obtained that twin-engine aircraft, of Czech make, fly over German territory.

b. Report does not indicate the occupation of the CHEB airfields.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
